

Together, We Are Stronger.

Throughout the duration of the current pandemic, we at Bunzl McLaughlin have been working behind the scenes to help businesses prepare for what may be considered the 'new normal'.

Our advanced team of Category Specialists have been sourcing products that not only protect you, your staff and your customers, but to also provide you with alternative solutions to keep your business going during these unprecedented times.

Our 'Food-to-Go Guide' and 'Adapt Your Pub' Brochures, are both aimed at helping you to adapt to the ever-changing marketplace, by offering ideas and solutions that keep you serving.

Alongside these, we have created our Back 2 Business Brochure. With the countdown to reopening finally in sight, it is vitally important to ensure you are prepared.

Not only is this brochure jam-packed with the products needed from a Health & Safety perspective, but it contains substantial advice and top tips on best practise and how to maintain customer trust throughout these times.

We have all your essential items covered, including: Sanitisation Stations, COVID-19 Signage, Cleaning & PPE Supplies and so much more.

For more information on how we can help you, or to receive any of our brochures, email: bmlmarketing@bunzl.ie or contact your local Area Sales Representative.
