

Hand hygiene and personal hygiene have become very important as a result of Covid 19. People's habits have changed now that it has gone on so long. It's important for us all to provide staff and customers with products that will help maintain the level of hygiene necessary. It's also important to watch costs and be conscious of our environmental impact.

Ille Ireland a subsidiary of Ille Germany are a hand hygiene and washroom product specialist company. For over 21 years we have supplied customers in every county from our four depots – Wexford – Dublin – Galway and Armagh.

**Our range of products includes;**

- Soap,
- Paper hand towel
- Hand sanitizer
- Hand cream,
- Toilet roll
- Toilet seat sanitizer
- Etc....

**Hand hygiene:**

Wash with soap and hot water – dry with clean paper – sanitize – moisturise

As part of our included free managed service we provide and fit your premises with the dispensers for each of these products free. We then deliver the consumables directly to you on an automatic schedule and take care of all dispenser repair or replacement.

**Why Paper:**

With air dryers blowing bacteria around businesses are moving towards paper but it's important to control usage and avoid cross contamination.

Illes' **"PAPER JACK" non-touch** hand towel dispenser allows the user to dispense a sheet without having to touch anything. Since the paper remains inside until needed cross contamination is avoided and the time delay between sheets controls costs and waste – good for budgets and the environment.

Paper Jack
