

Hello and welcome to the era of living with Covid 19. We at National Laundry Industrial Equipment have a long history of supplying and maintaining laundry equipment to the healthcare sector; as such hygiene has been at forefront of our business for almost 40 years.

We have continued as an essential service throughout these unprecedented times over the last few months to keep hospitals, nursing homes and the HSE operating fully, and to assist them to meet the increased demands in quantity and hygiene.

We want to take this knowledge and bring it to you in the hospitality sector now, in order to aid your safe reopening for your customers and your staff.

We are suppliers of laundry equipment to many hotels, restaurants, and others in the hospitality sector throughout Ireland, and we look forward to ensuring our customers can reopen safely.

The service we can provide in helping you to reassure your guests returning to your hotels and the hospitality sector includes but is not limited to;

- retraining staff
- assessing your laundry for sterilisation and best hygiene practice
- ensuring equipment is reaching appropriate temperatures for sterilisation etc.
- supplying equipment for quick onsite cleaning of dishcloths/mops etc.

We have a team on standby ready to assist you in any way possible. We supply and service nationwide, so please don't hesitate to contact us wherever in Ireland you may be.
